

CLIENT: HAVANNAH HOUSE, GLASGOW
SOLUTION: TARALAY IMPRESSION COMFORT

“ The linear pattern of Gerflor’s Taralay Impression Comfort’s Nest Black design is very simple but provides a ‘sexy’ look, whilst also being quite subtle and giving an architectural feature to the interior. ”

Magdalena Krzyżanowska,
Architect, Vastint Hospitality

Havannah House is a brand new private, student housing development in Glasgow City which offers more than just somewhere to ‘crash’ while studying. The six-storey, purpose-built building accommodates 458 students in a variety of stylish accommodation options from different sized individual and shared studio apartments with kitchen facilities to en-suite rooms, all complete with indoor and outdoor social spaces and supporting management services.

Built by Robertson Construction and designed by architect Anderson Bell + Christie for Vastint Hospitality, it is the international real estate organisation’s first student housing development in Europe. The aim was to create student homes with quality fixtures, comfortable modern interiors and unique touches in up-beat, lifestyle surroundings to offer an alternative to traditional halls of residence or private flat or house rentals.

■ We all agreed that practicality, acoustic properties and a strong design element that was far from the ordinary were important considerations when choosing the flooring. We took the view that Gerflor's Taralay Impression Comfort in Nest Black tied in with the kitchen scheme and ticked the boxes all-round. ■■
