Gerflor[®]

GRADUS

Flooring Solutions

Gerflor's housing collections contain carefully selected residential and commercial products. The product ranges are designed for both refurbishment and new build projects, catering to different areas within buildings, including for inside and outside the threshold.

Gerflor products are sustainable, innovative, and cost-effective to install. They prioritise safety, comfort and hygiene, making them a popular choice with landlords, tenants and homeowners. We are so confident in the quality of our products that we offer free trial areas for new customers.

Gerflor[®]

GRADUS

Fundamentals

A Fusion of Products & Values

Gerflor and Gradus offer products which are ideal for use in a wide variety of applications including healthcare, commercial office, education, retail, hospitality & leisure and housing. Products can be combined to provide a complete package that balances performance, aesthetics and cost, alongside environmentally responsible manufacturing processes.

A Fresh Approach

We believe passionately in providing the customer with the very best in terms of service. Through our combined team we can offer expert advice to help with product selection backed up with extensive UK stocks to ensure our products are delivered on-time, every-time.

Gerflor & Gradus

As a combined business, Gerflor and Gradus are the perfect partner for your housing projects. We have over 80 years' experience in this sector and we have innovative and sustainable solutions for social housing environments. Our low cost "on the floor" solutions save you time and money, are slip resistant and meet HSE ≥36 guidelines.

They are also extremely easy to install and our floorings are tough and durable, loved and wanted by tenants and home owners alike! Complementary Gradus Accessories including Stair Edgings, Floor Trims, Entrance Matting and Wall Protection solutions are also available for a complete package.

Stock Delivery

The Gerflor group of companies is a collaboration of well known and successful brands

Gerflor

Gerflor has an extensive warehousing and distribution facility based in Winsford. This logistical hub is geared to have sufficient capacity to offer a broad range of in-depth, best-selling stock for the housing sector. Through our network of dedicated distribution partners, we are also able to in collaboration, deliver an enhanced service level to our customers. You can depend on us, when you need fast delivery for last minute refurbishments and new build projects. Our housing collections are also competitively priced and do not compromise on the required quality you desire for your housing needs.

Gradus

At Gradus we aim to provide peace of mind for all our customers, through quality, performance and service that you can rely on. Whether it's offering advice on product selection, guaranteeing product performance or delivering the right product to the right place at the right time, we are committed to reducing risk for our customers. In every aspect of our UK manufacturing activities, we take responsibility for the environment, and meet our businesses and customers' needs without compromising our long-term future environment.

Environment

Sustainable, innovative & kinder for the environment

We care. We act.

GFT is a patented backing system from Gerflor, made from more than 95% recycled plastic bottles. It is also 100% recyclable.

1m² = 

Cost effective flooring

Revolutionary looselay technology that saves you time and money. Reduces the need for adhesives and minimal sub-floor preparation is required.

Recycled technical fibre backing made up of plastic bottles.

Gerflor teams have always considered customers and the environment as their absolute priorities. Our floor coverings, wall solutions and finishing components are user friendly, healthy solutions. They are designed with respect for our planet, to last as long as possible with proposed end-of-life options. From product design through end-of-life, the circular economy is a core priority for the group. We have determined 5 priority commitments to guide our environmental management up to 2025.

We care. We act.

Our commitments for a sustainable future

DIY SOS - Blackburn

The Roots Foundation, Wales

Havannah House, Glasgow

Park Hill Flats, Sheffield

Discover how Gerflor is revolutionising the social housing market with our innovative flooring solutions! Our case studies illustrate how our durable and stylish floors are transforming communal areas and living spaces alike. Explore how our flooring solutions bring comfort, sustainability, and aesthetics together to create inviting environments that residents are proud to call home.

Quality

A broad range of looselay, Gerflor Fibre Technology (GFT) backed floorings in multiple widths, allowing faster fitting and high quality products with lower waste, inconvenience and cost.

Lifetime cost savings

Gerflor's looselay GFT backed products avoid many subfloor problems as they can be quickly overlaid, even where there are high moisture levels. Benefits include the speeding up of installation time, lowering of costs and potential call-backs.

Partnership

Gerflor has dedicated and experienced sales and technical teams, to provide comprehensive support to its customers. Training on how to install Gerflor floorings is also available.

Tenant satisfaction

Whilst maintaining the technical performance and comfort aspects, Gerflor ranges are manufactured with environment in mind, as well as the health and well being of others.

"Gerflor is an ideal product for high traffic areas as I know it will really take the knocks and keep its vibrant appearance. For a designer like me, I love the wide selection of colours and finishes so the practical aspects don't have to compromise the overall design."

- Sophie Robinson, Interior Designer DIY SOS

A Lancashire charity that helps to support homeless young people is able to accommodate more of its service users after a rundown church room was completely renovated, thanks to the BBC's DIY SOS show and all suppliers who provided donations to this worthy cause.

Gerflor donated approximately 270m² of Creation 55 Dry Back LVT flooring for the main areas, including living space and bedrooms, and a further 16m² of Tarasafe Ultra H₂O vinyl safety flooring for the bathrooms.

Solution: Creation 55 LVT and Tarasafe Ultra H₂O

0579 Amarante

0373 Silver City

"I love to use strong colour in my schemes as it's such an instant game-changer and can effectively offer up the feel-good factor."

- Sophie Robinson, Interior Designer DIY SOS

In a special Children in Need episode the DIY SOS went to Swansea to help a local charity rebuild their support centre. The project needed high quality flooring as part of the re-build, so they turned to international flooring specialist Gerflor to come to the rescue with advice and the donation of some stunning products that would make this ambitious transformation possible. The various rooms in the centre benefited from Gerflor's outstanding Taralay Impression Comfort and Taralay Initial Comfort flooring.

Solutions: Taralay Impression Comfort and Taralay Initial Comfort

0724 Herringbone Chatain

0515 Diversion Kiwi

"The linear pattern of Gerflor's Taralay Impression Black design is very simple but provides a 'sexy' look, whilst also being quite subtle and giving an architectural feature to the interior."

- Magdalena Krzyzanowska, Architect, Vastint Hospitality

The six-storey, purpose-built building accommodates 458 students in a variety of stylish accommodation options from different sized individual and shared studio apartments with kitchen facilities to en-suite rooms, all complete with indoor and outdoor social spaces and supporting management services.

The aim was to create student homes with quality fixtures, comfortable modern interiors and unique touches in up-beat, lifestyle surroundings to offer an alternative to traditional halls of residence or private flat or house rentals.

Solution: Taralay Impression Comfort

0746 Black

0765 Taupe

"The client is absolutely delighted with the final outcome of the Gerflor flooring, and we understand the flooring is performing exceedingly well and meeting the client's expectations."

- Alex Mason, Area Sales Manager - Gerflor

In completing the £21M Park Hill Flats restoration project on a Sheffield housing development Kier Construction and architects Whittam Cox specified 4000m² of high-quality vinyl flooring from international flooring specialist Gerflor.

The project would provide a showcase for two of Gerflor's signature flooring products - the Taralay Impression Compact heterogeneous collection and their slip-resistant Tarasafe Standard safety range.

Solutions: Taralay and Tarasafe Sheet Flooring.

Services

As a combined business of leading manufacturers and as specialists in the housing sector, we have a number of added value services to support you with all your housing projects. Contact us for further information on any of the services detailed below.

Test our products – Free Trial Areas

We are so confident in our housing collections, we offer free trial areas up to 20 sqm for new clients, with projects greater than 500 sqm. Projects currently specified in any Gerflor domestic or commercial vinyl are excluded from this offer.

For further terms and conditions please contact us today.

Be in the know – Lunch and Learn's

If you are looking to find out more about how to overcome housing challenges, whether it is for refurbishments or new build, we have a range of informal seminars that can help.

Learn more about the latest housing innovations to ensure projects run on time and to budget in a sustainable and efficient way.

"The Big Idea" – Create a Visual Design

Do you need a bespoke service where you would like to see products and colours to suit an exact design requirement for a housing roll out scheme?

This in house design service is available to meet this precise need so that you can visualise your design in situ.

Inspiration to realisation – Sampling Mood Boards

If you are looking for tenants boards, material for mood boards or loose sampling or swatches for your projects, contact us for your housing needs.

We can supply standard and customised sampling for your bespoke requirements.

Get creative – Interior Designer

Ideal for architects, designers and specifiers, our flooring visualiser provides realistic imagery of our portfolio of original luxury vinyl designs. Explore wood and stone flooring and experiment with laying patterns.

You can also upload your own photographs to generate a real-life simulation of your floor.

Be informed – Virtual Library

With direct access to our free virtual library, you can discover our full range of commercial and technical literature whether you are in the office, at home or conducting an on-site installation.

Enhance your specifications – NBS

Gerflor and Gradus are live on NBS Source. NBS Source provides the construction product information you need, when you need it. Including new enhanced product data, along with everything from Product Selector, NBS BIM Library and NBS Plus, which integrates directly into your project work flow.

Develop your knowledge – CPDs

The Gerflor and Gradus CPDs fall under the design, construction and technology RIBA core curriculum.

They focus on keeping architects and specifiers up to date with the latest design, technical and engineering practices. They also explore some of the issues and trends that those in the industry now come to face.

Discover our projects – Case Studies

We have a wide range of credible references, with customer testimonials that demonstrate our product innovations in action. Find out more about how our clients have future-proofed their projects in education, healthcare, offices, sports and leisure, hospitality, industry, housing and many more.
