Gerflor & Gradus - The Healthcare Specialists

With over 100 years' of combined experience in the healthcare sector, together we have built an unrivalled reputation for quality and service.

The Gerflor group is well known as a credible and valued supplier of complete

flooring solutions designed specifically for the healthcare market. The constraints of hygiene, slip resistance and acoustic qualities are part of mandatory characteristics for this sector. Our expertise allows us to offer numerous flooring products suitable for all areas of a healthcare facility. Whilst maintaining the technical performance and the design

aspect of our floorcoverings, we manufacture our ranges with the environment in mind, as well as the health and wellbeing of end users. We have recognised brands ideal for healthcare facilities, including our Mipolam, DLW, Taralay, Taraflex® and Tarasafe flooring ranges.

Gradus is a UK manufacturer of contract interior solutions,

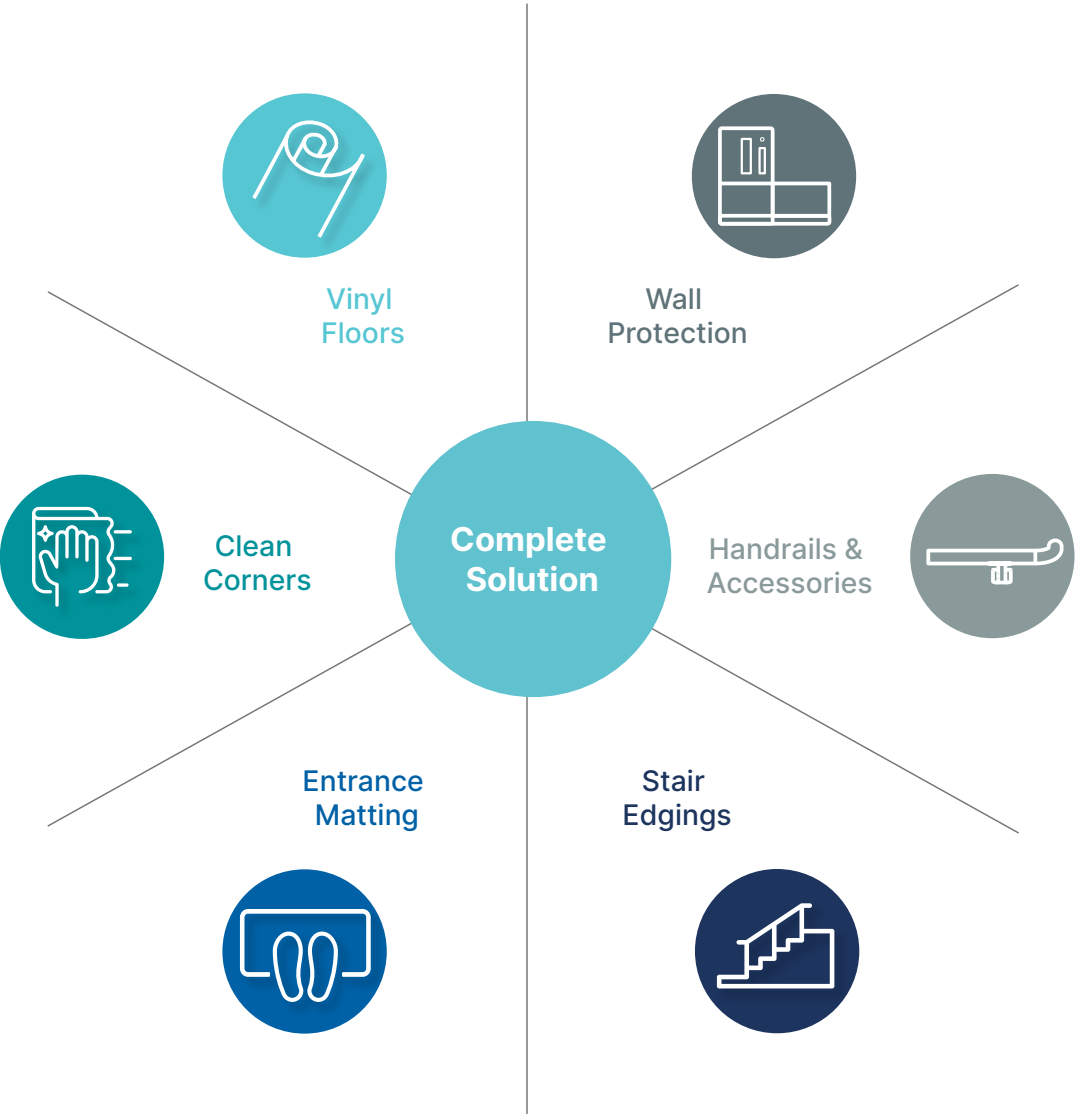

these include wall protection, stair edgings, floor trims, barrier matting and LED lighting. As the largest UK Manufacturer of Wall Protection we are able to offer a comprehensive range which includes textured wall cladding, hygienic cladding, handrails, dual rails, combination rails, wall guards, corner guards, bed protectors and door protection. Gradus control the design of

profiles from initial concept through to finished products including specialist CAD design and the manufacture of tooling. This ensures that quality is maintained and provides customers with an efficient, flexible, and fast service. We also offer a project management and installation service for our wall protection systems.

Our tried and trusted Healthcare Solutions

Complete Solution

Gerflor, along with our partner Gradus, is able to offer a complete floor and walls solution that can contribute to a clean and safe building environment.

Gerflor and Gradus Services

Technical & Specification Support Specialists

Gerflors' dedicated Healthcare specialists are able to assist you with all your specification needs. Whether it's a new build or refurbishment project we have the expertise and innovations to meet all budgets. Hand in hand with our partners, we work together to propose the optimum solution for the clients needs utilising the most appropriate safe, hygienic and sustainable solutions for the specific applications. We don't stop at just providing specification advice, we can also provide a free site survey, we will visit, assess and audit the facility and make improvement to future proof the building interiors.

The Technical Support team is available to offer advice on the specification and installation of products, including guidance on the latest healthcare building standards and legislation. Be rest assured that Gerflor has a world class pedigree of products that are tried and trusted and deliver each and every time, all backed up by a network of technical, specification and customer support teams.

Sampling Support Services For Every Need

We offer a free sample service for all our healthcare clients. Whether it's a range overview binder, loose sample (standard or bespoke), supporting literature or if it is something bespoke you need like a mood board or test material, contact us and we will aim to supply the sample for your required need. To request an actual sample, literature or anything else, email contractuk@gerflor.com or call 01625 428922 or visit the sample website by clicking here [FREESAMPLES](#)

Specification Documents and BIM Objects

As an NBS partner you have access to a single source for product information and incorporates the Gerflor and Gradus products. NBS Source provides an additional level of enhanced product data, in a consistent, structured format that will integrate seamlessly into your project workflow.

Entrance & Reception Areas

Key considerations when selecting Flooring and Wall Protection products for Entrance & Reception Areas

- ✓ A bright, calm and welcoming environment
- ✓ Resistance to heavy traffic
- ✓ Good slip resistance on floors
- ✓ Practical in design to facilitate building access
- ✓ Protecting walls and corners that are vulnerable to damage
- ✓ Zoning and navigation assistance

Complementary Products

0577 Albion

0561 Carassi

0360 Deep Forest

0535 Douglas

To see the full range - [click here](#)

Wall Protection

Selecting the right product

Entrance & reception areas are often subject to scuffs and scrapes from tables, chairs and other moveable objects. Corner & edges are also vulnerable to damage from deliveries and other wheeled traffic entering the building.

- 1 SureProtect Artworx (print option) - [click here](#)
- 2 Timber Handrail - [click here](#)
- 3 SureProtect Design® (wood effect) - [click here](#)

0050 Quartz Grey

0253 Pebble Grey

0132 Lime Green

0136 Turquoise Bay

To see the full range - [click here](#)

Wall Protection

Selecting the right product

Corridors and circulation areas are amongst the busiest parts of a building and often have to deal with a heavy flow of both pedestrian and wheeled traffic, which then filters into other parts of the building. This high level of activity often requires a robust protection system in place to protect vulnerable walls and corners from scuffs and scrapes and direct impact damage.

- 1 Dual Rail - [click here](#)
- 2 Wall Guard - [click here](#)
- 3 Door Face Protection - [click here](#)
- 4 High Impact PVC-u Corner Guard - [click here](#)
- 5 Stainless Steel Bollard - [click here](#)
- 6 SureProtect Endure® Wall Cladding - [click here](#)

Restaurants & Cafeterias

Key considerations when selecting Flooring and Wall Protection products for Restaurants & Cafeterias

- ✓ A bright, calm and welcoming environment
- ✓ Products that promote hygiene and infection control
- ✓ Quiet and comfortable underfoot
- ✓ Easy clean and low maintenance products
- ✓ Protect walls from damage caused by mobile equipment

Complementary Products

Gerflor Surface Treatments Vinyl - [click here](#)

Gerflor LVT Skirtings - [click here](#)

Gradus Cove Formers & Caps - [click here](#)

Wall Protection

Selecting the right product

Wheeled traffic such as industrial bins and carts can cause significant damage when accidental collisions occur. Motorised traffic including delivery vans and motorised trolleys are also potential hazards in service areas.

1) An innovative corner system

A total and complete solution for installing corners that aids the control of contamination

Controlling contamination in general healthcare environments as well as ultra clean areas such as burns units, pharmacies and operating theatres is always a challenge. Corners, in particular, are where most of the imperfections are found:

- Their shape makes cleaning and decontamination difficult
- Poorly welded, they can tear or sag under the weight of traffic
- Weakened by use, they end up losing their water-tightness

In partnership with cleaning professionals, Gerflor has developed Clean Corner System: a patent pending innovative corner solution. Years of research and development have led to Clean Corner System (Gerflor only validate this system with Gerflor products). Thanks to ultra-resistant and versatile profiles (Photo 1), Clean Corner System is suitable for all your projects, and delivers perfect results (Photo 2).

Innovations for Clinical Healthcare Environments

2) Surface treatments for vinyl

Our surface treatments are perfect for healthcare environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

Evercare™ is an exclusive surface treatment obtained by UV laser cross-linking. This means no waxing or polishing is needed to maintain a floor's appearance or colour brightness, reducing maintenance costs and lowering the environmental impact.

Protecsol® is a surface treatment that delivers stain resistance. It has been tested and approved for over 20 years, is easy to maintain and has no metallisation for life, saving on water and detergents.

For additional information on other surface treatments PUR, Sparclean® and PUR+ please contact us for further details.

VCT

Highly durable: Exclusive surface treatment applied by UV laser cross-linking provides superior durability and an even surface thickness, creating an impenetrable barrier against stains and chemicals. Longer life expectancy.

Water-repellent effect: The surface treatment creates a 100% non-porous barrier to prevent all liquids and chemicals from penetrating the materials, remaining on the surface. Simple and easy stain removal.

Innovations for Clinical Healthcare Environments

3) Surface treatments for linoleum

Our surface treatments are perfect for healthcare environments with unrivalled levels of chemical & stain resistance, reducing maintenance time and costs.

New solvent-free surface protection developed exclusively for DLW Linoleum.

Extremely hard wearing due to triple laser UV cross-linking.

Easy to Clean

- Dirt and stain barrier
- Cost effective maintenance
- Easy cleaning with a mop or any modern cleaning equipment

Detailed cleaning protocol available on www.gerfor.com
